## Message to Members

### Dear Members,

Taking steps to protect your identity and your money is something that is very important to us. Identity thieves are out there, from the depths of the dumpster divers to the tech-savvy internet thieves. Your mailbox is the first place you should begin on protecting your identity.

Hint -NEVER place outgoing mail in your mailbox, if it has personal information on it. Better yet, signing up for bill pay with your credit union is a great way to help protect your information. It's easy to sign up through **It's Me 247** online banking at [grandtrunkcu.com](http://grandtrunkcu.com).

When you receive mail from your mailbox that has personal information on it, you should shred it. Never throw them in the trash without making sure you have protected your information. Another idea is to never let your mail build up in your mailbox when you are away from home. Have it held at the post office until you return home.

Security is first!!! If you are a snowbird or move please make sure you change your address with us at the credit union. This is the only way we will make a change of address. We must have a signature to change your address in order to help protect your identity. Having a change from the post office will not work for us....

Protect your account from thieves. Never give them your account number or card numbers, for whatever play the fraudsters are trying. If it is too good to be true... then it is not! ***Our best advice is to be careful and protect your information!***

***Thank you for your membership,***

***LuAnn M. Schott***

### Social Networking Security

If you use Facebook, MySpace, LinkedIn, or any Social Networking Community website, you may want to take a closer look at your privacy settings. The US-CERT, (United States Computer Readiness Team), offers some good tips on Staying Safe on Social Network Sites. Among the important tips is simply recognizing that information you post on the web for your friends to read may be open for the world to read.
